FCC Mail Room

To whom it may concern,

I would like to cast my vote to repeal the NFL black out rule. My wife and I have medical disabilities and can not walk very far. All though I'm writing for my wife and myself, I would be writing for thousands of people in NFL cities across the Country that have an NFL team. We all pay County, city, & state taxes as well that pay for stadium up keeps contracts. I subscribe to a satellite NFL package which contribute to the TV Contract. We also buy hats, sweaters and t-tee shirts. All items with the league symbol. So I hope when you are making your decision on the black out rule you don't forget about people with disabilities because we would like to see the football games on TV.

Sincerely,

Mr & Mrs James Snyder
